LEGNOBAGNO[®]
IL BAGNO CHE ARREDA

FREEDOM

Mobili da Bagno Contemporanei /
Contemporary Bathroom Design

Programma componibile completo e di grande semplicità. Abbiamo riassunto, nelle 20 composizioni che avrete il piacere di osservare, le principali idee di arredamento per il bagno che maggiormente abbiamo a cuore e in assoluto le più attuali. Linee sia curve che squadrate: Abbiamo dedicato ampio spazio ai curvati con sette eleganti proposte. Da notare la maniglia che viene fornita della stessa finitura del mobile, dunque o laccata o in finitura legno. Tra le linee rette, molti nuovi elementi a giorno, contenitivi e basi a terra con piedini a scomparsa.

Top in politek lucido e cristalli integrati: Grande risalto ai top in resina lucida, per la loro grande bellezza, praticità e realizzabili in ogni misura, accanto ai tradizionali top in cristallo di intramontabile bellezza. Lavabi appoggio in ceramica: proponiamo una essenziale collezione di lavabi da appoggio che affiancano al desing, caratteristiche di grande praticità.

Top in resina materica: Fantastici top realizzati in finitura materica, ovvero simulando l'effetto della resina spatolata. Hanno gli stessi vantaggi di pulizia e praticità delle resine, di indiscutibile fascino, rappresentano un punto di forza del catalogo. Top in legno massiccio: sono i piani in abete rusticato, altra novità molto caratterizzante del progetto dallo straordinario sapore "etnico", con tutto il calore del legno vero. Il tutto in un percorso di immagini che spero possano emozionarvi, e al quale abbiamo dato un nome, una parola semplice e bellissima FREEDOM. . . is a state of mind.

This is a modular collection which is simple and complete. In the following 20 pictures, shown in this catalogue, we have summarized the main ideas regarding bathroom furniture, these ideas are those for which we care most of all and they are also the most modern. Curved and squared outlines: we have dedicated ample space to the design with curved outlines in seven smart proposal. Of particular interest we have a handle which has the same finish of the cabinet (lacquered or wooden finish). Among the squared outlines we have many open elements and base cabinets with presser feet.

Glossy politek top and glass top with integrated basin: we have given great importance to the tops with a glossy resin for their beauty, practicality and versatility, as well as to the traditional glass tops which are always beautiful. Surface mounted wash basin: We propose an essential collection of wash basins which are both stylish and practical to use.

Solid wood tops: these are made of fir wood brushed and aged. This is another novelty of the entire project, characterized by an ethnic taste and by the warmth of the wood. All this in a series of images that we hope will excite you and to which we have given a name, a word that is simple and beautiful: FREEDOM. . . is a state of mind.
