LEGNOBAGNO®  
IL BAGNO CHE ARREDA

# FREEDOM

Il nuovo programma FREEDOM ha il chiaro intento di elevarsi a collezione di design e riassume in modo piuttosto esaustivo i temi fondamentali del concetto più attuale di arredo bagno. La proposta delle finiture, sia in legno che dei nobilitati, si è implementata, le finiture dei laccati sono state riviste grazie all'aggiunta di nuovi colori; sono state introdotte ulteriori tipologie di top come i preziosi piani lavabo in gres ceramico e laminati HPL, oltre che le nuove resine materiche e nuove finiture dei top in ocritech. Le proposte fotografiche introducono una novità stilistica all'interno della collezione, anche grazie all'introduzione di elementi inediti come le strutture a giorno. Abbiamo avuto cura di migliorare anche i sistemi di apertura, specialmente nelle superfici curve dove da ante e cassettoni sono sparite le maniglie. Un programma dunque rivitalizzato, ricco di idee e sempre fedele al nostro modo di interpretare l'arredobagno. Speriamo possiate avere il piacere di sfogliare questo catalogo e che le nostre idee possano tramutarsi nella realtà delle ambientazioni.

FREEDOM is a new programme which has the very clear intention of elevating furniture design to such a comprehensive level of what the bathroom needs. The proposed finish, both in the wood and in the enhancements, has involved lacquer with new colour schemes. A new type of classification with regards to the top surfaces, such as washbasin surfaces in ceramic stoneware and laminated HPL besides other in resin material like Ocritech, has been introduced. As can be seen in the photographs, we are introducing new type of styling, thanks to innovative units which are for daily use. We have taken extra care in designing a new system of openings, especially when curvature surfaces are involved especially in cupboards and drawers where handles have been hidden as part of the design. So this programme has been revitalized by adding new ideas but always faithful to our way of interpreting bathroom furniture. We hope that you will enjoy leafing through our catalogue thus our ideas will translate into reality for your satisfaction.
